Guide to SKF Shelf

A single mobile source for relevant knowledge.

The SKF Shelf app allows you to:

Achieve confidence

- Be independent and access the downloaded documents offline, everywhere
- Be sure that the content is relevant and reliable
- Get notified when updates and additions become available

Work on your own terms

- Be flexible: customize and organize the library in a way that makes sense to you
- Combine downloaded information with own personal files
- Share selected content from and to Shelf, directly with others

Save time

- Get easy and instant access without registration
- Use search, bookmarks and annoations

Download for free

Find the "App Store/ Google Play" and start it

Search and select "SKF Shelf"

Click "Install"

Enter your password

The app will now download

Get started

Similar to Apple iBooks, the SKF Shelf app delivers the latest and greatest content from SKF to your mobile device.

Click SKF Shelf icon

Click "Login as a guest"

Read and agree to "Private Policy"/ "Terms & Conditions"

Select additional languages as required in Settings

Click "Finish"

How to use the SKF Shelf App

Search and download

You can search for information in a variety of ways.

1. Use the content bundles, popular themes displayed on the home page.

2. Click the "SKF Library" icon and enter a search term or use the menu to drill down in different predefined categories.

3. Filter your search further by using the button in the top right corner. (Save a search to your "Favorites" to receive automatic notification when new / updated content becomes available).

4. Use the "Select" button to select and download collections or documents to "My Shelf" for offline access and automatic updates. (High or low quality PDF downloads.)

Get organized

1. Log in online and your "My Shelf" content is automatically updated to latest versions.

2. Create your own folders to organize your downloaded files. (Select a document on "My Shelf" and click the "Move" icon at bottom of page, then move to an existing folder or create a new one).

Share

Select documents on "My Shelf" and click the "Share" icon

1. By email

2. Via OneDrive

3. Via Box

4. Via DropBox

Add personal files

1. Go to the source application of your choice, e.g. One Drive

2. Navigate to the file you wish to transfer.

3. Click the "share" icon on the top right of the page and select "send file" option.

4. Select "copy to shelf".

Simplify your day

Now just get started. For more information and detailed instructions, please follow: www.skf.com/skfshelf
